

I love K-Love radio. So does my 5 yo son. We listen to it at home at in the car. We listen to this 95% of the time. It is family friendly and I never have to worry about what my son might here. I absolutely do not want K-Love to be displaed by an LPFM radio station. There is already so much junk on the air and chances are that new radio stations will not be family friendly. There is so many bad influnences out there. We don't need more and we need to hang on to all of the good influences we can. K-love is great for the community. Please save it.
